LIME STONE

Experience the strength and elegance of limestone.

Limestone plays a vital role in road and building construction, with its versatile applications in aggregate, cement, building materials, chalk, and crushed stone. It is a fundamental ingredient that shapes the very foundations of our infrastructure, showcasing the enduring strength and versatility of this remarkable stone.

SAND STONE

Experience the warmth and charm of sandstone.

For countless generations, sandstone has been widely utilized as a favored material for construction and paving. Comprised of fine grains of minerals like quartz or feldspar, sandstone stands as a testament to the enduring beauty of nature's sandy embrace.

ARTWORK

- Water Jet - CNC - Column -

In Artwork we have Water Jet, CNC and Coloumn.

- Waterjet cutting machines deliver a smooth finish to marble. Due to the large use of marble for structural purposes, a waterjet makes sure that its edges are perfectly processed.
- Marble, natural stone, & granite plates will be cut by CNC machines, so you can get the design of your dreams.
